

Mission Statement

Toothy's Treasure redefines live theatre by seamlessly blending fiction with reality. We engage our audiences not as mere spectators, but as active participants in a fantastical journey. In an era dominated by digital connections, we recognize the yearning for genuine human interaction. *Toothy's Treasure* fosters a sense of community, uniting people of all ages in laughter and shared moments of make-believe.

In our workshops, we've witnessed magic happen as audiences experience the thrill of becoming a true hero, solving real challenges alongside a crew they genuinely belong to. The volunteers' roles are minimal, involving simple decisions and responses, while the actors do the rest to personalize the experience and create an electrifying atmosphere of unpredictability.

As Gen Z writers we are paving the way for gender inclusivity in theatre. All characters are written to be gender-neutral, empowering performers to authentically embody their own identities, shining brightly in comedic roles that reflect their unique, joyful expressions of self.

Together, we affirm that theatre is not merely a spectacle, but a collective experience. Join us in challenging conventions, celebrating individuality within the ensemble, and nurturing the joy and community found in live storytelling.
